MILLWORK

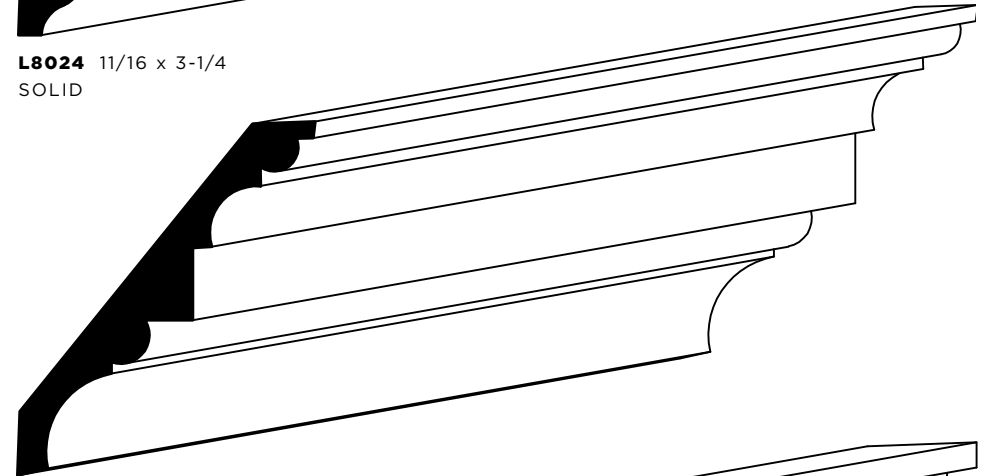

THE LEGACY SERIES

Wholesale Millwork is proud to present The Legacy Collection. Many of these architectural mouldings represent designs dating back to the most distinguished homes of the mid-1800s. The majority of these profiles are made from a high quality poplar. The high density of poplar allows for the manufacture of profiles with clean lines, crisp edges, and parallel surfaces. Once shaped, the moulding is primed, buffed and primed again, delivering an incomparable finish on a superior substrate. These profiles create depth, warmth and distinction by maximizing the interplay of light, architecture, and space in your home. Extensive research has culminated in this offering that will transform a house into a home of distinction.

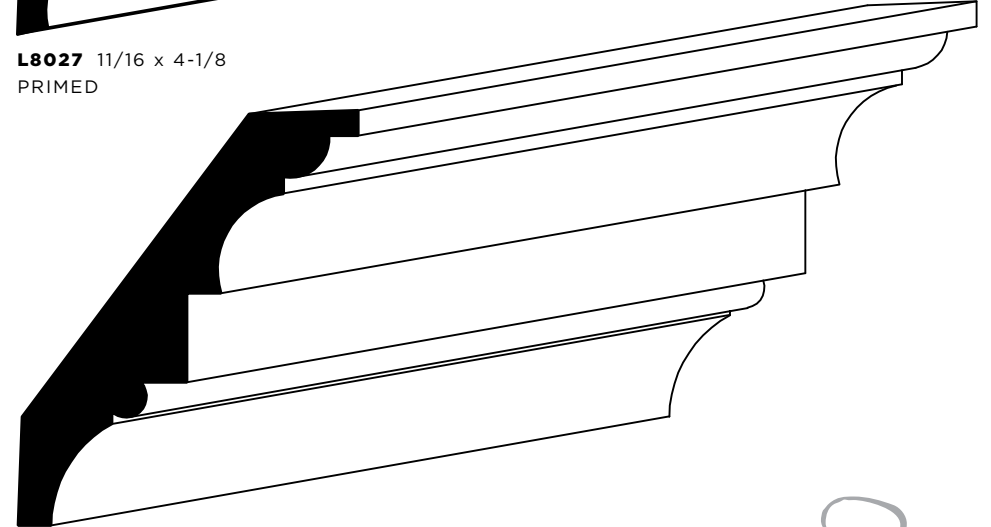

Legacy mouldings are also available in RED OAK, WHITE OAK, HARD MAPLE, CHERRY, and AFRICAN MAHOGANY.
